Cakereations USER MANUAL

The Cakereations ordering program is a super user-friendly and easy program which allows you to order cakes that you desire with a few presses of a button!

Stated below are the steps to order cakes of 1/2/3 layers of your desired flavors.

SECTIONS :
1.1 - Ordering a cake
1.2 - Making changes to the cake
1.2.1 - Removing a cakeProjects
1.2.2 - Amending a cake

1.1 Steps for ordering a cake:

Step 1 : Press **A** to start to create a new cake.(Please type A twice when starting a completely new order.)

Step 2 : The program will ask you to input one of the flavors allocated.

Please note if the inputted flavor is not in our menu, the program will take an input of a flavor from one of our more expensive flavor categories.

Step 3: The program will ask for the number of layers of the cake. Enter a number between 1 and 3 to select how many layers you want in the cake.

Please note that inputting any number outside of 1-3(1,2 and 3) will result in the program reading the input as a 3 layer cake.

Step 4: You are required to type in any dietary requirements that you might want to let us know about.

Step 5: If you want to make any changes to your cake, please type **C.(Refer to section 1.2 for making changes).**

Step 6: if you want to order another cake, please press **A** again and follow steps 1 through 4.

Step 7: If you want to view your shopping cart till your last order, press **V**. You will be able to see your cake order(s) and the total cost.

Step 8: If you are done with your order, please press **E** to checkout and have an invoice printed.
